The sound of LU

We want to connect with one another – to approach and talk to one another. The City of Ludwigshafen's Advisory Council for Migration and Integration is joining forces with symphony orchestra Deutsche Staatsphilharmonie Rheinland-Pfalz to organise a transcultural music festival that will be held in the heart of the city on 21 May 2022.

Music societies, ensembles and artists based in Ludwigshafen are invited to help shape the festival.

It's all about coming together for a shared experience. Throughout the day, a fair will be held on the Theaterplatz square and in the foyer of the Pfalzbau Ludwigshafen convention centre, where the societies, ensembles and artists can present themselves: by either setting up their own information stand, selling food and drink, providing workshops or even putting on small performances. Later on in the evening comes the high point of the festival – a joint concert on the stage of the Pfalzbau.
